THE SOLIS

The Solis was originally designed by our resident artist, Goldfinch, and is now available as one of two Sculptural pieces in the New Generation. Latin for sun – the original design inspiration was when we were asked to design a commission that represented the sun rising over the Californian desert.

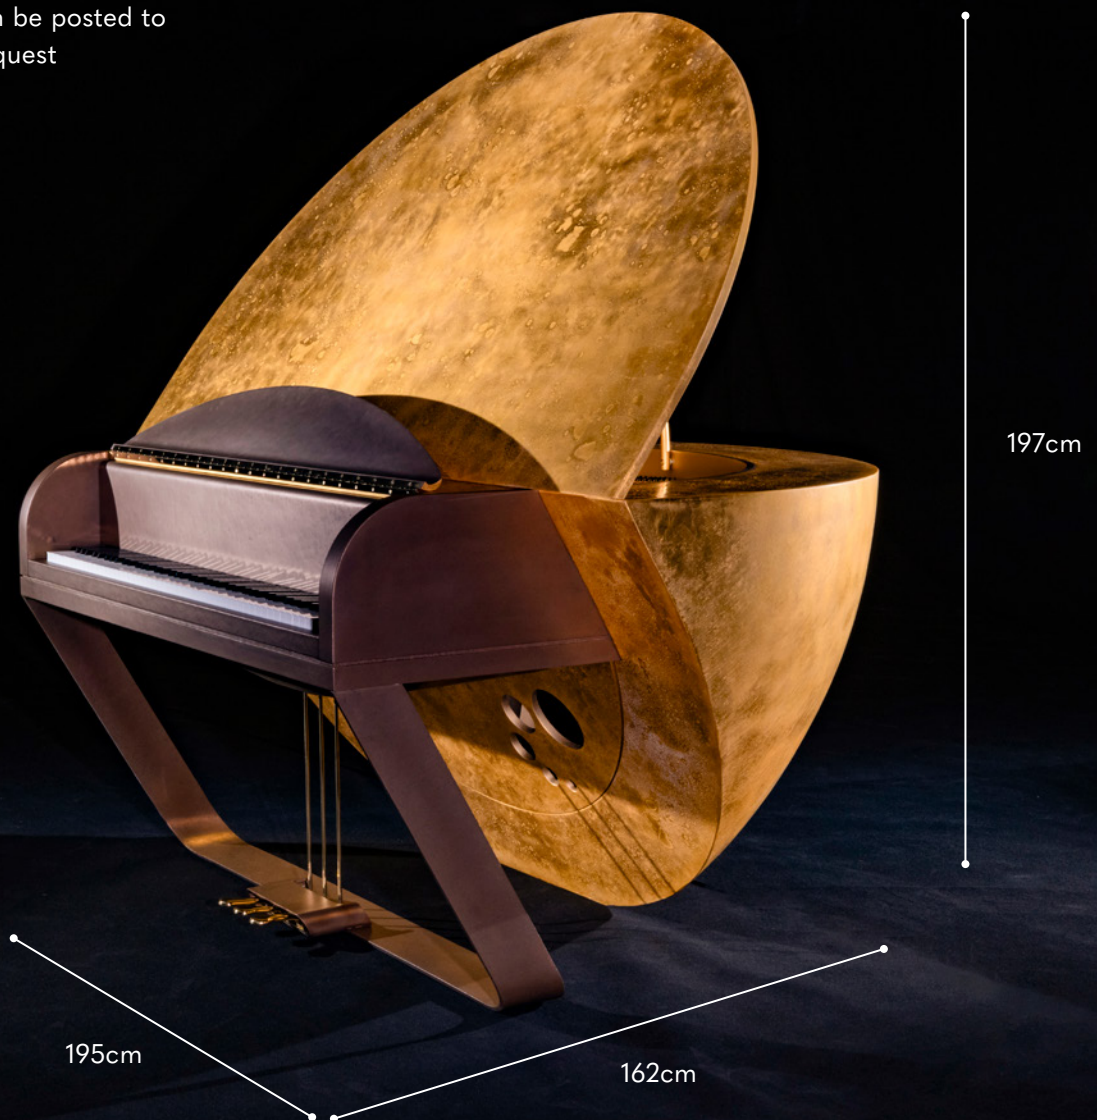

Boasting our exclusive Sun-baked Gold Leaf finish and our unique Heirloom liquid metal finish – from whatever angle you view the Solis it will always display a different secret or detail about it's design you won't have seen before.

With it's striking new prop stick and back lift lid – the Solis is our smallest sculptural piece but this only enhances it's presence and impact on any interior.
