NEW GENERATION

THE LIQUID MODA

This design came from an unlikely concept, remembering a childhood story that had featured square sweets that looked round, we decided to create a round piano that looked square!

The monolithic blocks that replace the traditional 3 leg design gives a modern twist to a very classical shape.

The design is patently minimalistic and industrial with this theme being reflected in the understated finish pairings with patinated genuine Liquid Metal combining with matt finished soft pastel tones. Only available on the G66 or G75.
